Dear PSC,

We are residents of Mallard Point Subdivision in Georgetown, Kentucky. We disagree with the proposed rate increase for our sewage bill. We do not believe this is a justified rate increase when other neighborhoods, which are only ½ mile away, are paying \$26.25 per month. We believe that what we pay now (\$35.29) is too much. Even when we lived in Lexington we didn't pay this much. In the letter that we received from Mallard Point Disposal Systems, it was stated that we needed this enormous rate increase due to rising costs. What exactly are those rising costs? With 260 homes in Mallard Point, I find it hard to believe that we need a 49% increase to run our sewage system. Didn't we just have an increase a couple of years ago? Please deny this unjustified and unnecessary rate increase.

Sincerely,

Brian and Leslie Stumbo
